WE OFFER THE FOLLOWING TERMS OF SALE

1. All Coins GUARANTEED Genuine - This is a LIFETIME Guarantee!
2. All attributions are guaranteed correct - also LIFETIME Guarantee!
3. The IDENTIFIED POPULATION estimates (RARITY) of varieties change as more pieces of Copper are attributed, and it is IMPOSSIBLE to have an ACCURATE rating! But, we do use the most up-to-date data available - as reflected in "Copper Quotes by Robinson". (CQR)
4. STRICT ANA & EAC guidelines are used in grading, which consist of assigning a grade based on the state of preservation/wear of the piece. We then describe the condition of the coin so that you will have as good an idea as possible of what the coin looks like without actually being able to see it in person. It is our intent that there be NO SURPRISES when you receive the coin. Virtually all old Copper has accumulated some marks in their lifetime since leaving the Die/Mint - it is our intent to describe any such marks of significance. We now introduce a new term - VALUE GRADING!!

   Sharpness Grade is far easier to describe in consistent terms, and where there may be circulation defects such as porosity, gouges, rim dinges/nicks/bruises, corrosion and other such detractions, arriving at a NET GRADE is certainly subjective at best. The grade that we have assigned on the first line describing each coin is intended to represent this NET GRADE/VALUE GRADE.

   If the Second Line does NOT start with a Sharpness grade, then it is our opinion that the NET GRADE of the coin is the SAME AS the SHARPNESS GRADE of the coin, and that there are NO SIGNIFICANT defects worth mentioning. Perhaps NOT PERFECTION, but whatever marks or other elements that may be present, do not deduct from the over-all appearance/grade of the coin, and are mentioned for accuracy.
5. A Full 30 DAY return privilege is allowed for any or no reason. Our business is based upon attracting repeat customers, and it does none of us any good for you to keep a coin with which you are not completely satisfied. The 30 day period is an approval period, and we welcome any of our customers to show their purchases from us to any other EXPERIENCED EAC member for another opinion. Sales are final after the 30 day period, but we will certainly consider extensions in this time limit upon any reasonable request.
6. All coins are guaranteed to meet ANACS certification for grading! Any coin graded lower by ANACS can be returned within 120 days for immediate refund of the full purchase price plus all ANACS certification service fees.
7. All orders are sent postpaid.
8. Approval service is available to established clients with 7 day terms.

We are always interested in buying Early Copper & Type Coins! If you have coins to sell, we would be happy to have you contact us. We are willing to PAY STRONG PRICES for NICE coins. We will also accept coins on a consignment basis at a reasonable commission. Please feel free to contact either of us with ANY questions that you may have:

MARCH, 1989 FIXED PRICE LIST #0021

It has been a busy last two months and more copper activity is still to come. I have recently returned from the fabulous Jack Robinson auction of Large Cents. Many lots I purchased there are offered here for the first time. The sale was a huge success and the pace frenetic. Prices were for the most part very strong. As always there were some bargains and there were lots which brought seemingly astronomical prices. See my description of the sale in the comments section.

Still to come; in April the EAC convention and auction which this year will contain an outstanding offering of Naftzger duplicates including a mint state S-46,an AU50 S-112 and many other mint state and condition census pieces. In June the Bob Matthews collection of Early And Middle dates will be offered by Superior. My schedule includes The St. Louis Numismatic Exposition March 30-April 1, The Early American Coppers Convention April 13-15, Central States April 19-23, The Bob Matthews Sale and The Long Beach Convention May 29-June 4.

I have obtained some outstanding Early Copper for your consideration. I was able to purchase a beautiful 1794 Head of 1793 S-18b out of the Robinson sale which I offer here at what I think is a very favorable price. Many of the Robinson coins come with impressive pedigrees and in my view owning a piece that has passed through the hands of numismatic luminaries such as Hines, Sheldon, Blaisdale, or Paschal offers an intangible reward beyond the value of the coin itself. An extensive offering of Half Cents is highlighted by a condition census 1803 C-1. Also offered the fourth finest known 1804 C-4, and an 1805 C-2. Probably the finest group of 1794 Cents I have yet offered is highlighted by the S-18b. Many scarce middle and late dates are also offered. I have a few copies of the Super delux Jack Robinson Sale catalog. These contain dozens of photograpic plates are hardbound and come in a protective cover. The current price is $200 and this should prove to be a good long term investment.

As always please feel free to call me with any questions I'm always happy to share information or offer my opinion. Best to call to reserve especially scarce items as I often receive multiple orders for these. Hope to see many of you in Cincinatti in April.

1799

****

1799 S-188 R4 VG8 1799/8 OVERDATE $2050.00
VG10 Black and tan. Light surface roughness though actually above average quality for the variety. Excellent centering with both Liberty and date sharp. All of reverse legend as well as ONE CENT readable. A nice respectable example of the 1799 overdate. This date may be partially credited for starting the pursuit of Large Cent collecting in this country. In 1816 a young man named Joseph Mickley, about seventeen years of age decided he would like to own a Cent from the year of his birth. His birthday was March 24,1799. Thus began a long search for young Joseph, as even then Cents of the year 1799 were rarely encountered. Ultimately Joseph Mickley became one of the first truely prominent American Numismatists. He built a collection valued at over $30,000, at the time an incredible sum. Part of his collection was auctioned by dealer Edward Cogan in 1867. The centerpiece of the collection was a Choice Very Fine 1799 Large Cent lot #1975. It brought $32.00.

****

1799 S-189 R2+ .G5 $ 950.00

1804 S-266 R3 F12 $1250.00
VF20 Black and tan. Minor marks and just a bit grainy. Good eye appeal. Early die state without rim cuds.

1804 RESTRIKE AU50 $ 410.00
Struck circa 1860 by Joseph Mickley and Edward Cogan by altering a badly rusted 1803 S-261 obv.die and a reground 1820 N-12 rev die these were likely struck orginally for collectors as "hole fillers" as the workmanship is certainly not of a quality to fool even a casual numismatist. A real piece of numismatic Americana. This is a well above average example. With negligible wear and a bit of red.

1805 S-267 R1 G5 $ 35.00
Choice glossy chocolate brown. Nice for grade.

1805 S-267 R1 VG10 $ 52.00
F15 Dark brown and tan. Light scrtach from neck into obv field K5. Surface slightly grainy. Better eye appeal.

1805 S-268 R4 VF25 $ 525.00

1808 S-277 R2 F15 TWELVE STAR OBVERSE $ 240.00
VF20 Dark olive chocolate. Glossy appearing though the underlying surface is microscopically rough. A couple old scratches under CENT. Dramatic reverse die breaks. A handsome Cent overall.

1808 S-279 R1 VG8 $ 42.00
VG10 Glossy black. Some nicks, a couple rim marks.

1809 S-280 R3 G5 $ 58.00
Chocolate brown. No bad marks. Reverse a little sharper the obv as usual. The rarest date of this type.

1809 S-280 R3 F15 $ 485.00
F15/VF25 Glossy tan with the reverse sharper than the obverse as usual with this variety. Minor rim nick K1 obv, minor nick obv field K8. Well above average color and surfaces for this date which generally comes on dark rough planchets.

1809 S-280 R3 VF35 $1250.00
EF40+ Attractive jet black. Just the barest trace of granularity. Marks free surfaces. An attractive Cent and scarce in any condition. Approximately a dozen finer examples known to me.

1811 S-287 R2 VG10 $ 135.00
F15 Chocolate brown with a smooth appearance but microscopic granularity. A few scattered pits. Good eye appeal.

1811 S-287 R2 F15 $ 225.00
VF20 Glossy chocolate and steel. A nick in obv field K9. Some surface crud in devices rev. Overall good appearance.

1812 S-288 R1 F15 $ 185.00
VF30 Black and coppery tan. with evenly corroded surface. A bit of dirt but basically free of marks. Very sharp with eye appeal of a full VF coin.

1812 S-288 R1 VF20 $ 250.00

THE JACK ROBINSON SALE

It took a long time to look through the two thousand plus lots of the Jack Robinson sale. Every few hours I would take a break to rest my eyes and stretch. During one of the breaks three youngsters , the youngest about five the oldest maybe twelve came into Superior Galleries. They sat down at the counter and Judy Kann one of Superiors employees asked if she could help them. The oldest pulled out a blue Whitman penny folder 1941-58 about half filled with BU Lincolns, obviously carefully put together. To my delight Judy asked them to wait a minute and cam back a moment later with a black double row box of Lincoln Cents. She spent most of an hour helping them select six or seven dollars worth of coins which the boys promptly placed in their album. I wish everyone who has fears about the future of coin collecting could have witnessed that scene.

In a way, a scene not that much different was in the process of being played out. The auction of the Jack Robinson collection of Large Cents represented a true collectors collection. There were choice condition census pieces, finest knowns, incredible rarities. There were also scudzy lower grade coins. Of course even low grade scudzy coins can be desirable. (see lot 1238). As might be expected the sale attracted a group of true collectors virtually every major collector was in attendance. Those who could not be there were represented by agents. But to get the real flavor of the experience you had to be there in person.

I arrived at LAX tuesday morning before the sale after an uneventful plane ride. Rendevouxed with my buddy Tom Reynolds, a quick side trip to rent the car and off we went. Driving in California is always an exciting experience. The locals, perhaps sensing we were from out of town, were especially friendly waving, honking and gesturing to us in welcome. At Superior we were greeted by Larry Goldberg " Chris, Tom great to see you! Can I get you coffee or a soda...Just make yourself at home..What do you

want to see? At noon we were offered lunch. Throughout the week Superior had lunch catered for everyone looking at lots. I never experienced any trouble getting lots to look at nor to my knowledge did any one else. When veiwing in the gallery downstairs threatend to become too crowded the whole operation was moved upstairs to provide more room. I think you get the picture. Lot viewing was handled in such a way as to make everyone feel welcome and comfortable with the process. There was a real sense of comaraderie among the participants with small knots of EACers gathered around discussing the lots. Speculation as to who was after what. Declarations of intent. Deal making. Proposals, counter proposals The several days prior to the sale were very much an EAC celebration and a celebration of the sale itself.

I suppose this would be an appropriate place to mention grading,always a major topic of pre-sale conversation. It is pretty much generally agknowledeged that grading has tightend up a bit over the past few years. Much more attention is paid to small problems or detractions such as minor marks or light areas of discoloration. The overall grading here was very good I would note however, that especially on known coins,that is, coins that have been in the CC for a long time and handed down through famous hands, Del is a bit more forgiving than I think he is on newly discovered specimens. Now that said, I will go ahead and speak out of the otherside of my mouth and say that perhaps such "gentleness" is warranted. For instance lot 92 the VF20 S-52 Ex Dr Maris,WW Hays,Steigerwalt,Zug,Lyman Low,Gilbert,Elder, Granberg, Woodin,Hines,Sheldon,Paschal,Adams,Loring. I think that owning a Cent that has passed through the hands of a group of revered collectors as mentioned above more than compensates for a tiny nick on the neck. What a thrill to be able to obtain a coin that has been cared for and cherished by collectors for over a nudred years ! This sale offered many such opportunities.

The grading of the middle and late dates was done for the most part by Bob Grellman. I felt that the middles were almost exactly right. The lates were I felt fine in the grades up to EF but perhaps unrealistically strict in the higher grades. Almost all the lates graded as EF45 sold as Choice AUs. I am tempted to contrast the grading here with that of another sale by anothe firm held concurrent with the JHR sale. Instead I will simply state that here all Condition Census information was correct as far as determinable and every effort was made to accurately grade and describe the material. I don't think anyone expected less. But it is not always the case and Superior and the catalogers deserve our thanks for a job well done.

Friday evening we were all invited to Phil and Renee Ralls home for a pre sale party. We found the first empty parking space a block and a half away. The house was packed with EACers. Phil and Renee's home is beautifully decorated. I noticed an Augustus St Gaudens bronze in the hallway to my left and a Chagall lithograph above the fireplace to my right. Apparently Early Cents are not the Rall's only artistic interest. Phil greeted us at the door and Rennee waved hello as she went past heading for the kitchen where she,Lee Kuntz wife and Del's wife Nancy were kept busy providing food and refreshments for at least a hundred people. What festivities! Bill Noyes had brought a set of color photographs of the Naftzger coins which aroused a great deal of interest. Incredible coins. Several people had brough Cents to pass around. Jack and Linda Robinson arrived and were immediately swamped with well wishers.

At a sale of this scope, where there are hundreds of high quality coins ther is always speculation about which coins will be most hotly contested and whic coins might slip by unnoticed. The 94 Starred reverse, the S-53, 1800 S-202 and NC-4 were major topics of discussion. The S-79 was known to be of major importance to several collectors. I heard at least two people coyly mention the " EF45 " S-284 (a CC level coin that had been undergraded by ten points). Several other people brought up the outstanding selection of mint errors. Who could tell what they would bring?! The incredible die states!! Well there was plenty to discuss and Phil and Renee had provided a generous and hospitable atmosphere in which to discuss it. The hour grew late and a group of us left in a caravan following Dennis Loring and his navigator Tony Terranova. Perhaps you remember from your Sunday school days the saying " when the blind lead the blind they both fall in the ditch" ..a brief tour of the greater Los Angeles metroplex and we were home.

Saturday was somewhat more subdued. The Goldbergs had arranged a formal gathering at the Marina Del Rey Yacht Club. A beautiful seafood buffet was provided as well as an open bar. The atmosphere was genial and festive. But from the occaional steely eyed look and the more often "it I cost you" one could tell we were getting close to sale time. Mark, Ira and Larry Golderg were all present along with their wives. Suzy, Glenn and other Superior employees also attended. I don't think it is possible to overstate how positively the hospitable attitude of Superior affected those of us who came to bid in the sale. Did bidders stay in one bid longer than they had planned to? Were we willing to pay just a bit more for that special coin because of the festive atmosphere that had been created? I think yes. Bob Matthews collection will be sold by Superior in late May. Will the reception we EACers received here affect how many come out again to bid in Bobs sale ? You bet it will.

Sale day started early. A bit of pre sale chit chat. Then the first taste of battle. The Moreira sale contained a number of important Half Cents and Large Cents it is to be presumed that most of these had been sent in for the JHR sale but because of late arrival or some other reason were place here. The first really important coin was the VF20 1804 C-4 here graded F15 and third finest known. The last comparable coin offered was the Ricky Gross specimen sold in 1983 for $2500 unexplainably the bidding stopped at $2200 and I purchased it for stock. Thirty lots later the real bombshell a beautiful VF35 S-2 Chain Cent absolutely choice. Quickly raised to $10,000 the bidding ended at $17,500 hammered down to a completely new ,though not entirely unknown bidder, Charlotte Frankenfield, the wife of well known collector J.R. Frankenfield. " I just liked it" Charlotte said afterward. Well mark up one new Chain Cent collector.

A long lunch some strategy sessions and it's time to head upstairs. Close to a week evaluating lots and now it's here. I'm sure I'm not the only one who's stomach suddenly seems tied in knots. More than one lot was known to be especially desired by one collector or another. As an example Bob Shalowitz has been putting together an exceptional set of 1793s. Lot #8 the most perfect F15 S-7 comes up. Here is a coin that almost always comes on a poor planchet, the second finest available to collectors as the finest known is held by a prominent collector and the second finest is in ANS. "Well that was'nt too bad" Bob has to be saying to himself as the coin sells for $15,000. In contrast lot 61 the F15 S-37 is known to be desired by several collectors. Next to the S-79 this is probably the most difficult Sheldon variety to locate. Since the RSB 65 coin brought 6K I fully expect this to bring 15K however four hands are still in the air at that level and the ultimate bid is $34,000 to Dan Holmes. Dan currently owns the only complete set of Newcomb varieties. I guess this means he is SERIOUSLY pursuing the Early Dates as well.

Only four years ago the choice VF20 S-48 Starred reverse had trouble attracting a buyer. This time there were several buyers. One of whom was prepared to pay multiples of the price of four years ago. This example is listed as fifth finest known. Though clearly not as nice as the Adams coin, I felt this example to be much nicer than the Halpern specimen which is listed as a VF25 coin in the CC. Doug Birds desire for this coin has been thinly veiled. His hand goes in the air and the bidding stops at $30,000. As the night goes on this will look more and more like the buy of the sale. Nine lots later the S-53. An incredible coin it sold for only $7,000 in the Adams sale. Surely it will bring twice that here. I'm half right as it sells for $32,000 to the same buyer as the S-37.

Lee Kuntz has been building his Sheldon set over the course of two decades. Only one left the S-79. This same example sold for 22K in the Robbie Brown sale three years ago. This time a half dozen bidders two of them former owners were still in at over 40K. The bidding finally stopped at $58,000 to a standing ovation. Congratulations Lee!

Only a little over two months ago the ugly 65 S-218 in Norweb brought a hammer price of $3400. Here a truly nice F12 brought $6750. Selling to the husband of our newest Chain Cent collector. Remember the EF45 S-284 lot #633 ? It brought $3200 in spirited bidding proving that more times than not the coin sells for what it is.

The middle dates were not of the same overall quality as the early dates though you couldnt tell that from the first middle. Wes Rasmussen had come determined to purchase the 1816 N-1. Very choice and a minimum of the EF45 listed in the catalog perhaps five points higher,at least eighth finest known. The bidding quickly raced past three,four, five thousand finally stopping at $7250. The very next lot was just as important the finest known terminal die state 1816 N-1 a choice VG10 coin. Die states are becoming increasingly popular though to my mind they are still undervalued. This example the finest known of only three examples of the die state sold for $1800 to die state specialist Dennis Mendelson. A few lots later the 17 N-17 terminal state sold to the same collector for $1600. Many of these terminal states are very rare and dramatic coins. Often there are only three or four specimens knowns in terminal state. The examples above were somewhat expensive. But often slightl less rare or dramatic pieces can be purchased for less than a hundred dollars. Sounds like a lot of bang for the buck to me.

One of the most highly sought after Cents in the sale was the choice F12 1827 N-12, an excessively rare variety, seldom offered in any condition. This example had been cherry picked by EACer John Morton five years ago for $25. It brought $4000 here and has subsequently been resold for somewhere in the neighborhood of 5K. If this was not evidence enough that middle date madness is not dead witness the ferocious battle for the 1829s. Lot 887 a choice AU 29 N-3,flatly struck but almost fully lustrous opened for a few hundred dollars, quickly rose to five and ultimately sold for $7500 to Jan Valentine. The next lot an EF40 1829 N-4 fourth finest known of the variety. Had beeen sold for only a few hundred dollars a year and a half ago. $5750 was necessary to win here. The next lot a 29 N-5 graded VF35 but probably at least ten points better sold for $2500 to a Northern California collector. This pretty much brought to a close the first nights session. Mark Goldberg of Superior had called virtually all 920 lots without a hitch.

It seemed we barely had time to get back to the hotel and catch a few hours sleep before it was time to begin again. The terminal state 1833 N-4 VF20 aroused quite a bit of interest before being hammered down for $8000 to the buyer of the aforementioned 16 N-1 and 17 N-17 terminal states. Lot 1099 was an example of what happens when two people each decide they will buy a lot no matter what the cost. In this case the object of desire was a nice EF45 1835 N-19. Third finest known of the variety and the first example to ever be offered publicly. A VF20 coin had been rumoured to have changed hands privately for 3 to 4K last year. It was assumed this was worth somewhere in the neighborhood of seven. At least one bidder promised to go as high as ten. When the dust settled a Kentucky collector had the honors at 15K very possibly the highest price ever paid for a circulated middle date.

The late dates brought very strong prices across the board. And received broad support at every rarity and price level. Remarkable was lot 1238 VG8 scudzy 1843 N-17 bid to a remarkable $8000. Later the 51 N-42 was bid to $12,000 before being bid in by Bob Grellman. Better ask Bob if you want to figure out this one. Incredible prices if you ask me. But one thing is certain. Late dates are being seriously collected and collectors are paying serious money for those that appear to be truly rare.

The Half Cents were important but almost anti climactic. By now most of our brain cells were on overload. Lot 1888 the 97 C-2 graded VF25 here had been listed as AU50 at one time in the CC. It looked to me to be a nice 35 coin. Whatever the grade it sold for $4000 to specialist Roger Cohen. The 97 C-3c alleged gripped edge turned out just to have a few edge nicks in my opinion. I purchased the 1805 C-2 a choice VG10 coin for $4400 while the 1806 C-3 went to JR at a reasonable $2400.

After the sale Jack and Linda Robinson stood up at the front of the room, thanked us all for attending the sale and invited everyone out for dinner. I mean everyone, the entire auction room full of people. Has anyone ever heard of anything like this before? Approximately fifty to a hundred of us met at a restaraunt a few blocks away for dinner on the Robinsons. I don't know what more to say except that at one point Linda,who is in the process of re-modeling their soon to moved into condiminium turned to Jack and said " well I guess this means I can re-do the kitchen" Jack just smiled and nodded.

I think it's safe to say a good time was had by one and all.
